Holidays are a perfect opportunity to decompress

REFLECT

on the year that was so you can get a blue-sky perspective for 2025.

RESET

- Let your clients and colleagues know you're unavailable during the holidays
- Dedicate time to activities you enjoy – reading, swimming, hiking, etc.
- Get creative and try something new – paint, write, flower arrange to help channel your thoughts
- Say no to things and protect your time
- Enjoy your downtime without the thought of work looming

Fully embrace the holiday spirit and nurture yourself and your relationships.

Due to phytoncides released by trees, spending time in nature, especially in forests, can reduce stress and improve wellness.

NEW YEAR'S RESOLUTION BOARD

Create a family resolution board where everyone sets intentions for the new year.

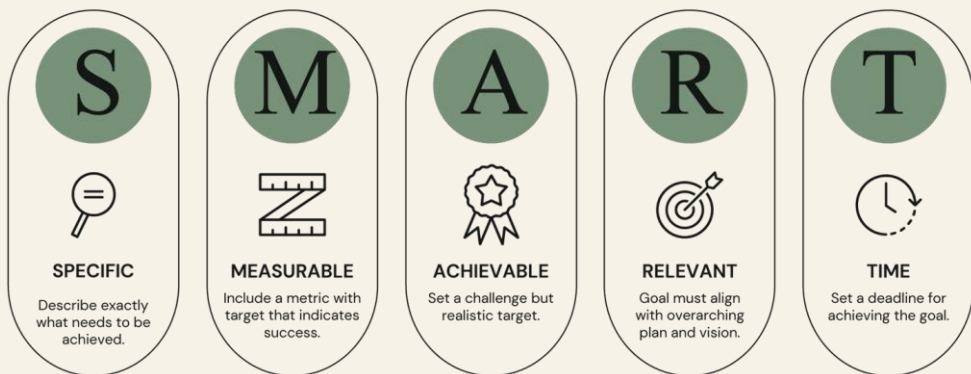

Keep it visual and hold each other accountable as the year progresses.

Blend the spirit of the holidays with family fun and activities for everyone.

Get smart for the New Year

Reflect on achievements and improvement opportunities for the year ahead – so you can set some SMART goals.

A goal that's not SMART

"I want to save money for a family holiday."

A SMART Goal

"I will save <set amount> each month, for the next 12 months by cutting back on coffee, dining out and unnecessary subscriptions so we can holiday in <location> as a family next October."

This goal is **Specific** (saving a set amount per month), **Measurable** (the amount and timeframe), **Achievable** (attainable through cutting specific expenses), **Relevant** (everyone wants a holiday!), and **Time-bound** (by next October).

With SMART goals, you have the power to create a fulfilling and impactful year ahead!
